Delhi, India Portfolio Daksh Batra dakshbatra01

PROFESSIONAL SUMMARY

Data Visualization Analyst with a strong focus on transforming complex data into clear, actionable insights. Experienced in building interactive dashboards using Tableau and designing high performance visual analytics tools that support strategic decision making. Skilled in translating business questions into intuitive visual stories, with a solid foundation in data analysis, statistics, and problem solving. Hands-on experience working with real world datasets to identify trends, risk patterns, and key performance indicators.

EDUCATION

B.Tech - Computer Science & Artificial Intelligence, 08/2024 – Present
Newton School of Technology x Rishihood University
CGPA : 9.3

Bachelor of Science - Data Science and Applications, 05/2024 – Present
Indian Institute of Technology Madras
CGPA : 9.48

CORE EXPERTISE

Data Visualization & BI
- Tableau
- PowerBI
- Seaborn
- Matplotlib

Data Processing & Analysis
- Pandas
- NumPy
- SQL
- Excel

Predictive Analytics
- Python
- Statistical Modeling
- Machine Learning

Business Strategy & Ops
- Scenario Modeling
- KPI Tracking
- Risk Segmentation

FEATURED PROJECTS

FinShield: Loan Risk Prediction , *Financial Analytics*
Tools: Python, Statistical Analysis, Tableau
- Developed a data-driven risk segmentation framework to identify key financial factors driving loan defaults.
- Validated LTV (Loan-to-Value) & DTI (Debt-to-Income) dual-band policies to optimize borrower screening and portfolio performance.

Restaurant Performance & Operational Optimization , *Business Analytics*
Tools: Google Sheets, Pivot Tables, Scenario Modeling
- Analyzed restaurant transactional sales data to evaluate revenue structure, operational efficiency, and customer satisfaction.
- Assessed revenue concentration risks and simulated sensitivity models to optimize operational strategies.
